

New Hampshire Dairy Goat Seminar *Basic Veterinary Practices and Hoof Care*

Farm and Forest Exposition

Saturday-February 4, 2012, 9:30 a.m. to 12:30 p.m.

Center of New Hampshire – Radisson Hotel, Frost Room, 700 Elm Street - Manchester, NH

With the shortage of large animal veterinarians, there is a need for animal owners to have some basic skills to take care of minor health issues and know how to recognize symptoms and administer first aid until a veterinarian can arrive. This session is part of a state-wide series being held this winter. There is less opportunity for hands-on animal practice at this location, so there will be an emphasis on hoof health care, with some goat hoof models to work with.

SCHEDULE:

9:30	ADGA District #1 Meeting Phil Cassette, ADGA Director, and regional directors
10:00	Basic Veterinary Practices and Hoof Care Dr. Steve Crawford, State Veterinarian Dorothy Perkins, Education Program Coordinator, Ag Resources, UNH Cooperative Extension, Merrimack County
12:00	Discussion and Questions
12:30	Adjourn

Registration, at the door, is \$5.00 per family and anyone 4-H age is free. The proceeds go toward the conference and 4-H dairy goat activities. Dairy Goat publications will also be for sale.

John C. Porter

UNH Extension Professor, Emeritus

Dorothy Perkins

UNH Extension Education Program Coordinator,
Ag Resources, Merrimack County

Sponsored by the University of New Hampshire Cooperative Extension in cooperation with the New Hampshire Dairy Goat Association. If you will require accommodations to participate in the program, please contact John Porter before January 25th at 603-796-2151, EXT 322.
